

# Let's make elephant Christmas tree decorations

## You will need:

- \* Fimo craft clay
- \* 1 knife and a pair of scissors
- \* Drinking straw (to make a hole in the clay)
- \* dough roll
- \* working surface cover

## How to do it:

Print the **männi.** - template and cut it out with the scissors. Roll out the modelling clay with the dough roll until it is 5mm thick. Lay the cut out template on the layer out of the modelling clay. Trace the contours with the knife. Use the to make a hole in the clay so you can hang up the decoration. You can put a ribbon or a piece of string through it. Let the elephant decoration dry. You can also paint **männi.** in blue if you want to. Have fun making your own Christmas decorations!
